

# Science Olympiad Commitment Form

## Student

- I, \_\_\_\_\_, am joining the \_\_\_\_\_ School Science Olympiad team.
- I will participate in the Division B/C Science Olympiad Competitions on our assigned dates and any invitational events that our team might attend.
- I will spend at least 1-2 hours each week (per event) studying and preparing for **each** event I am assigned.
- I realize that our head coach will do their best to assign me an event that I prefer. However, I am aware that my top choices are not guaranteed. I will do my best for my team in whatever events I am assigned.
- I will work cooperatively with my assigned teammate(s) in the spirit of learning and good sportsmanship.
- Poor behavior (disrespect of students/parents/teachers/property, goofing off, wasting time etc.) will result in my dismissal from the team.

## Parent(s)

- I, \_\_\_\_\_, agree to coach at LEAST one (1) event for the \_\_\_\_\_ School Science Olympiad team. I am aware that in some cases there might be a need for additional coaching from a family. Our head coach will try to limit that to the best of their ability.
- I will ensure that my child can attend the Division B/C Science Olympiad Competitions and Invitational events as dates are announced.
- I will commit to approximately 2-4 hours per week per event assisting students in preparation for Science Olympiad events. I understand that some of this time is in gathering resources and learning the content so that I can mentor effectively.
- I realize that our head coach will do their best to provide coaching ideas and materials. However, I recognize that I will have to research and supply coaching materials.
- I will serve as an educational facilitator and encourage students to take ownership of their learning and the creation of their own projects.

**Students:** Please rank **ALL** events in each section below from 1-4. **We should not really be seeing a lot of 4's in the rankings since you are a TEAM PLAYER.** Here is what the ranks mean:

**1: Events you would be ecstatic to have.**

**2: Events you are mostly happy to have.**

**3: Events you can live with...not your best choices, but you would survive if assigned these events.**

**4: Events to stay away from... these will cause you extreme discomfort and might even turn you off the wonderful world of science!**

## Session A Events

\_\_\_\_\_ Bio Process Lab (States Only)

\_\_\_\_\_ Crime Buster
